EDUCATION

Master of Science, Computer Science University of Florida	Dec 2024 Gainesville, FL
Relevant coursework: Advanced Data Structures, Analysis of Algorithms, Software Engineering, Human Computer Interaction, Distributed Operating Systems, Computer Networks, Computer Information security.	
Bachelor of Technology, Computer Science Bennett University Delhi, India	May 2023

WORK EXPERIENCE

Software Developer Intern Superstars, Inc.	Aug 2024 – Dec 2024 Remote, United States
- Developed responsive front-end components for the web application using Angular, HTML, CSS, and TypeScript, ensuring seamless integration with the backend through API testing and validation with Postman. - Collaborated with the product team to enhance application features, participated in sprint meetings to assess progress, and contributed to product improvement initiatives. - Worked closely with the UI/UX team, gaining experience with Figma to provide design feedback and ensure user-friendly, intuitive interface development. - Architected reusable video components using MediaRecorder API and WebRTC, implementing AWS CloudFront delivery that reduced component code duplication by 40% across platform's video features used on 10+ pages.	
Cloud Engineer Intern Mactores	Jan 2022 – May 2022 Remote, India
- Developed and deployed scalable cloud solutions by provisioning Amazon EC2 instances for compute capacity and utilizing Amazon S3 for secure, durable storage, ensuring optimized application performance and reduced latency. - Implemented Security Measures by configuring AWS IAM roles and policies to enforce least-privilege access, and setting up Amazon VPC to isolate resources, enhancing data protection, and overall cloud security. - Monitored System Performance and set up basic alerts with Amazon CloudWatch to track resource usage & uptime.	

VOLUNTEER EXPERIENCE

Software Developer Twilight (University Startup)	Sept 2024 – Jan 2025 Gainesville, FL
- Built a platform connecting startups, talent, and investors, promoting collaboration in the startup ecosystem. - Developed RESTful APIs using Node.js and Express.js to enable efficient backend data handling. - Designed a responsive and dynamic frontend with Angular to enhance user experience. - Utilized MongoDB and SQL for hybrid data storage architecture to optimize performance and scalability.	

TECHNICAL SKILLS

Languages: C++, Python, Typescript, JavaScript, HTML5, CSS3, SQL(MYSQL), NOSQL(MongoDB)
Frameworks/Technologies: Angular, React.js, Node.js, Express.js, RESTful APIs
Developer Tools: Git, Postman, Docker, Jenkins, Figma, Android Studio
Cloud technologies: AWS (S3, EC2, CloudFront, RDS, CloudWatch), Microsoft Azure

PROJECTS

GatorHive React.js, Node.js, AWS RDS, MySQL, AWS S3, AWS EC2, Git
- Developed a web application that simplifies event discovery and promotion in campus for University of Florida students. - Designed a responsive user interface using React.js for improved user engagement and experience. - Built a scalable backend using Node.js and Express, integrating MySQL for data storage, AWS S3 for image management. - Deployed the application on AWS EC2 infrastructure using PM2 to ensure scalability and high availability for the users.
Pharmatq Flutter, Android Studio, Firebase, Git
- Developed an e-commerce mobile app for medicines, integrating nearby pharmacies for faster delivery services. - Designed a user-friendly mobile interface using Flutter, improving accessibility and overall user experience. - Integrated Firebase for secure real-time data storage and backend services, ensuring data synchronization. - Implemented push notifications for order updates and reminders, improving user engagement.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Microsoft Certified Azure Administrator Associate (AZ-104)
- Microsoft Certified Azure Fundamentals (AZ-900)

ACHIEVEMENTS

- Secured a scholarship for my master's program, in recognition of exceptional academic performance.
- One of the 11 students out of 500+ applicants to receive a US\$17000 Scholarship for bachelor's degree.
